DOC. MICRO. SER.

☐ ☐ 1. Attached is the letter obtained by ☐ ☐ from HMMSTRTY. ☐ opened it to make sure it was the one requested. Although we cannot read the handwriting, it is quite apparent that the signature is not P. Gidon, but V. Ivan, which leads us to believe that this may be another letter written by Ivan to HMMSTRTY himself.

2. In approaching subject, ☐ ☐ gave him the date and place at which the letter was given to him by Villax, told him that VILLAX is now in France and that Villax and his friends had decided that the route by which the letter was to be sent was unsafe. It took ☐ ☐ four hours to convince HMMSTRTY to hand over even this letter. If this is not the right one, we will send him back to try again and will employ the code names you mentioned in para 2 of reference memorandum as well as showing him the last name of the letter without revealing the address. We were reluctant to bring ☐ ☐ any further into the operation than was absolutely necessary, but since HMMSTRTY lives in the Soviet zone of Vienna, we were forced to use an indigenous agent.

3. Please advise us soonest. We are losing a lot of valuable time on this operation.

4. We will retain the letter to you from Ivan pending clarification of this matter.
